

SECRET

15 May 1985

MEMORANDUM FOR: Executive Director  
FROM: Director of Central Intelligence  
SUBJECT: London TIMES Articles

I clipped these from the 10 May issue of THE TIMES of London. We should take this as an occasion for a little self-examination to make sure that we do not have the symptoms such as those which seem to have infected MI-5, and that the steps and procedures to protect and avoid them are in place and effectively applied. How are we doing on the four points which are bulleted in the Anthony Bevins story attached?

  
William J. Casey
